

MOBILE CAPACITIVE LOADS 0.5 TO 6KW (SINGLE & 3-PHASE)

Ref	CH05	CH05-RP	CH20	CH20-RP	CH40	CH40-RP	CH60	CH60-RP
Power	500VAR		2KVAR		4KVAR		6KVAR	
Switch	6							
Variation in	bonds / Steps : 5%							
Type	Portable	On wheels	Portable	On wheels	Portable	On wheels	Portable	On wheels
Weight	11kg	16kg	12kg	17kg	13kg	18kg	16kg	21kg

- The CH is a capacitive load useable from 0 to the rated power.
4 jump leads to plug in safety terminals, connect a bank of capacitors in 3-phase star 400V, delta 240V or single-phase 240V.
- 6 switches 5%, 10%, 15%, 20%, 25%, 25% regulate the load from 0 to the rated power without interrupting the load (ie 0 to 4kVAR for CH40).
- Safety : a discharge resistor is placed at the terminals of each capacitor.
- Male earth socket in standard. Female earth socket upon request.
- Portable unit (in steel). Dim. 500 x 300 x 200mm.
- CEI1010 CATIII 1000Vrms pol2
